

CASACOR / MIAMI

BY LEMME

By Lemme is a boutique design studio based in Miami. Our studio was born out of a desire to provide a tailored experience by bringing out the authentic character and essence of each space, idea, or brand. There are as many unique spaces as there are people who inhabit them. This guides our process of developing functional spaces with uncompromised design.

We seek to innovate by designing experience-oriented spaces through the creative use of materials, integrated technology, and thoughtful consideration to how people inhabit spaces in an evolving world. Hospitality focused, our experience includes a variety of both local and international projects, such as boutique hotels, luxury resorts, restaurants, retail spaces, office spaces, and more.
