

## JESUS PACHECO

Born in Arequipa, Peru. The landscaper and interior designer Jesus Pacheco, 29, started his career at the age of 17, working on a TV show specialized in design, architecture and construction in his hometown.

After this exciting start, he moved to Lima where he worked in Casacor Peru with the well-known Argentinian architect Silvia Radice.

Understanding the opportunity presented right after this experience, Jesus founded three companies related to interior, decoration and furniture design. These exciting enterprises merged, giving birth to “Jesus Pacheco Studio” in Lima.

That allowed Jesus to “début” in Casacor Peru as a solo professional, at the same time that he began teaching postgraduate courses in the Universidad de Ciencias y Artes de America Latina Ucal among others.

With the knowledge acquired, Jesus moved and developed projects in Sao Paulo, Tel Aviv and Washington DC, simultaneously with Peru, where he kept his studio active.

“Raising and developing conceptual projects that mix the natural and innovative, is a personal goal to be achieved in each and every project” (Jesus Pacheco)
