## **CAROL ADRIANZA FERDINAND**

Propelled by a long-term fascination with the various hypocrisies and contradictions within her own religious upbringing and the occult, Miami-based multimedia artist Carol Adrianza Ferdinand melds performance, photography, video, painting, installation and found objects into her emerging practice. She explores states of being and the contemporary sublime into both process-driven exercises and energy blooms of improvisation. Adrianza's works are based in a firm understanding of hermetic symbology and ritual, but are designed to be gentle metaphoric rebellions against their inherent dogmas.

Carol Adrianza Ferdinand was born in Caracas in 1978. She received her MA in Business Law from the Universidad Santa María, Caracas and her degree in Fine Art Studies from the Centro Culturale 'Oficina dell' Arte', Sestri Levante, Italy. She also holds a degree in modern languages from UNIMET (Universidad Metropolitana), Caracas. Adrianza has participated in group exhibitions at venues in Italy, United Kingdom, Spain and US. . Adrianza lives and works in Miami Florida.
