

CASACOR / MIAMI

STONE & ROSE

Joanne Stone and Liubasha Rose are two friends and kindred spirits with a shared vision that meets at the crossroads between jewelry and interiors. We are endlessly inspired by nature and the four elements which we channel through all of the materials used in our designs. We tap into the mesmerizing power of crystals to give each piece created by Stone & Rose a specific energetic intent, customized for our clients. Mysticism, indigenous cultures and traditions intrigue and excite us, while our love of clean lines and modern hardware refines our aesthetic.

Joanne Stone is founder of **Joanne Stone Design**, an 18k fine jewelry collection that respects the natural formation and power of crystals.

Liubasha Rose is founder of **Rose Ink Workshop**, a multidisciplinary creative firm that specializes in hospitality interiors.
